KAYAT SRX SERIES

SINGLE ROLL BUNDLERS

Incorporates multiple features that reduce maintenance and improve ease of use.

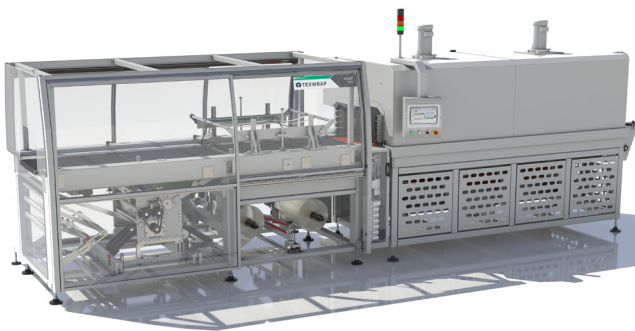

The Kayat SRX Series platform is a continuous motion single roll bundler that can be configured to shrink bundle loose or trayed product. It creates shrink bundled bullseye packages by wrapping the product in clear or printed film. The SRX uses bottom overlap technology for strong seals and the ability to showcase printed film graphics.

Designed to handle a wide variety of packaged food and beverage products, the SRX Series uses a single roll of clear or printed film with speeds up to 60 cycles per minute. The SRX series has a robust, industrial design and provides easy access for operation and maintenance.

WHY TEXWRAP?

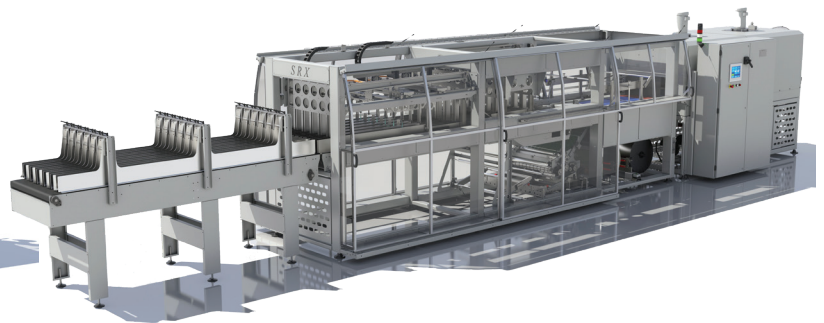

Texwrap incorporated features in the SRX Series that addressed customer needs including an easy-to-adjust wrap zone, superior sealing and control, adjustable airflow, easy maintenance, reduced changeover time, and more.

All Texwrap machines are designed, fabricated and built to last for years providing the absolute lowest Total Cost of Ownership in the industry.

SRX SERIES FEATURES

TOOLLESS ADJUSTABLE WRAP BAR ASSEMBLY

Easily adjust wrap zone for package height with no change parts.

EASY MAINTENANCE ACCESS

Film feed and cut assembly slides out for easy maintenance.

STATE-OF-THE-ART AIRFLOW CONTROL

Easily adjust airflow to create the most appealing appearance on the end product.

DUAL ROLL FILM MANDRELS

Minimize changeover time and reduce packaging downtime.

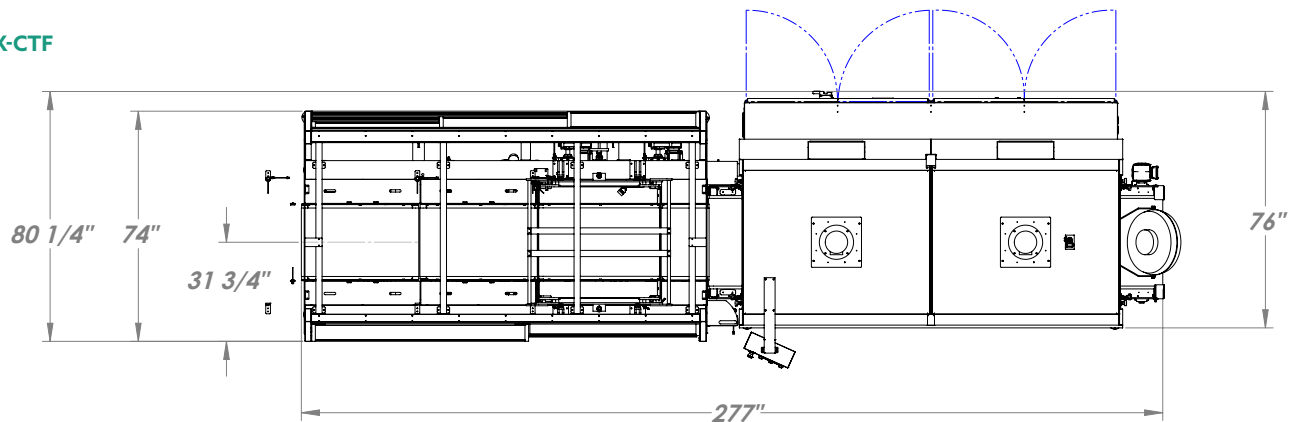

INTUITIVE HMI CONTROLS

Updated controls package including predictive maintenance flags for common wear parts.

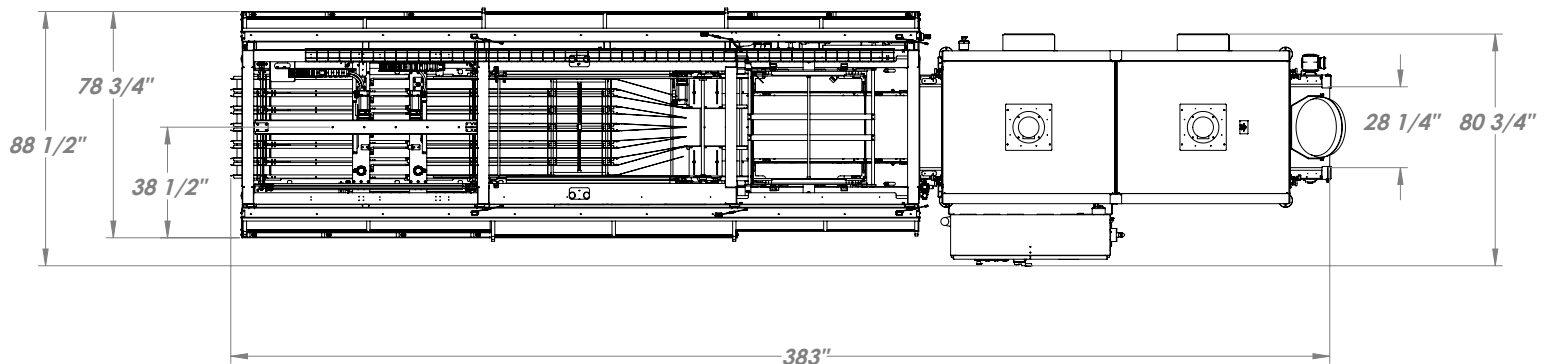

Made in the U.S.A. quality and customer support along with our industry leading 10-Year Built-Better Backed-Better Warranty ensure the Lowest Total Cost of Ownership in the Industry.

TYPICAL PRODUCT SPECIFICATIONS

SRX SERIES SINGLE ROLL BUNDLER	
Minimum Package Size Both Height & Width cannot be at maximum dimension	3" Height 6" Width (Across the Machine) 5" Length (Direction of Flow)
Maximum Package Size Both Height & Width cannot be at maximum dimension	12" Height 20" Width (Across the Machine) 12" Length (Direction of Flow)
Film Width	Maximum: 30" Width
Film Diameter	Maximum: 20" Diameter
Film Types	Clear, Print-Registered
Construction	Heavy-duty welded tubular steel standard; optional corrosion resistant design for wipe down environments
Orientation	Right or Left-hand configuration available
Country of Origin	Designed and manufactured in the USA

Texwrap provides high-quality stand-alone machinery and systems to produce commercially attractive shrink wrapped and shrink bundled products that are protected for storage and shipping. We provide one of the most comprehensive lines of cost-effective high-speed shrink wrapping and bundling solutions for a variety of applications including L-bar sealers, continuous motion side sealers, intermittent motion side sealers, lap sealers, and vertical wrappers, as well as tunnels, conveyors, and infeeds. We also specialize in designing and building systems for e-commerce packaging, as well as custom systems to fit unique applications for a variety of shaped products.

We have a network of highly-trained packaging distributor partners to better serve our customers. These partnerships ensure the best machinery and application fit, smooth startup, reliable local service, and long-term return on investment.
